Board employees authorized by the Treasurer may use purchasing cards only for school-related purposes in accordance with this policy and administrative guidelines to be developed by the Superintendent. Purchasing cards shall not be used to circumvent the general purchasing procedures required by Ohio law and Board policy.

2/14/12
ELECTRONIC MAIL

The Board of Education is committed to the effective use of electronic mail ("e-mail") by all District staff and Board members in the conduct of their official duties. This policy, as well as any guidelines developed pursuant to it, are not meant to limit or discourage the use of e-mail for conducting the official business of the District, but rather, this policy and any corresponding guidelines are intended to establish a framework for the proper use of e-mail as an official business tool.

When available, the District’s e-mail system must be used by employees for any official District e-mail communications. Personal e-mail accounts on providers other than the District’s e-mail system may be blocked at any time due to concerns for network security, SPAM, or virus protection. Furthermore, District staff are expected to exercise reasonable judgment and prudence and take appropriate precautions to prevent viruses from entering the District’s network when opening or forwarding any e-mails or attachments to e-mails that originate from unknown sources.

District staff may join list servs or other e-mail services (e.g. RSS feeds) that pertain to their responsibilities in the District, provided these list servs or other e-mail services do not exceed the staff member’s e-mail storage allotment. Staff members are required to keep their inbox and folders organized by regularly reviewing e-mail messages, appropriately saving e-mails that constitute a public record or student record and e-mails that are subject to a Litigation Hold, and purging all other e-mails that are not needed. The e-mail service provider is authorized to block e-mail from list servs or e-mail services if the e-mails received by the staff member(s) regularly exceed ten (10) megabytes.

Public Records

The District complies with all Federal and State laws pertaining to electronic mail. Accordingly, e-mails written by or sent to District staff and Board members may be public records if their content concerns District business, or education records if their content includes personally identifiable information about a student. E-mails that are public records are subject to retention and disclosure, upon request, in accordance with Policy 8310 – Public Records. E-mails that are student records should be maintained pursuant to Policy 8330 – Student Records. Finally e-mails may constitute electronically stored information ("ESI") that may be subject to a Litigation Hold pursuant to Policy 8315 – Information Management.
State and Federal law exempt certain documents and information within documents from disclosure, no matter what their form. Therefore, certain e-mails may be exempt from disclosure or it may be necessary to redact certain content in the e-mails before the e-mails are released pursuant to a public records request, the request of a parent of eligible student to review education records, or a duly served discovery request involving ESI.

E-mails written by or sent to District staff and Board members by means of their private e-mail account may be public records if the content of the e-mails concerns District business, or education records if their content includes personally identifiable information about a student. Consequently, staff shall comply with a District request to produce copies of e-mail in their possession that are either public records or education records, or that constitute ESI that is subject to a Litigation Hold, even if such records reside on a computer owned by an individual staff member, or are accessed through an e-mail account not controlled by the District.

Retention

Pursuant to State and Federal law, e-mails that are public records or education records, and e-mails that are subject to a Litigation Hold shall be retained.

E-mail retention is the responsibility of the individual e-mail user. E-mails sent or received using the District’s e-mail service may only be retained for six (6) weeks on the server at the e-mail service providing location. This retention is for disaster recovery and may provide for future retrieval. The District does not maintain a central or distributed e-mail archive of e-mail sent and/or received.

Staff members are required to forward copies of any e-mails received in their personal e-mail account(s) not affiliated with the District server to their District e-mail account so that these work related e-mails are also archived for future retrieval, if necessary.

Unauthorized E-mail

The Board does not authorize the use of its proprietary computers and computer network (“network”) to accept, transmit, or distribute unsolicited bulk e-mail sent through the Internet to network e-mail accounts. In addition, Internet e-mail sent, or caused to be sent, to or through the network that makes use of or contains invalid or forged headers, invalid or non-existent domain names, or other means of deceptive addressing will be deemed to be counterfeit. Any attempt to send or cause
such counterfeit e-mail to be sent to or through the network is unauthorized. Similarly, e-mail that is relayed from any third party’s e-mail servers without the permission of that third party, or which employs similar techniques to hide or obscure the source of the e-mail, is also an unauthorized use of the network. The Board does not authorize the harvesting or collection of network e-mail addresses for the purposes of sending unsolicited e-mail. The Board reserves the right to take all legal and technical steps available to prevent unsolicited bulk e-mail or other unauthorized e-mail from entering, utilizing, or remaining within the network. Nothing in this policy is intended to grant any right to transmit or send e-mail to, or through the network. The Board’s failure to enforce this policy in every instance in which it might have application does not amount to a waiver of its rights.

Unauthorized use of the network in connection with the transmission of unsolicited bulk e-mail, including the transmission of counterfeit e-mail, may result in civil and criminal penalties against the sender and/or possible disciplinary action.

Authorized Use and Training

Pursuant to Policy 7540.04, staff and Board members using the District’s e-mail system shall acknowledge their review of, and intent to comply with, the District’s policy on acceptable use and safety by signing and submitting Form 7540.04F1.
