Motion carried.
RESOLUTION NO. 123-12
RESOLUTION TO APPROVE REVISED POLICY ON SELECTING STUDENT TEACHERS/ADMINISTRATIVE INTERNS

WHEREAS, the Board of Education of the Youngstown City School District, pursuant to R.C. 2909.34, 3319.282, and 3319.39, adopted a policy that encourages cooperation with State-approved colleges and universities in the training of student teachers and administrative interns because the public school offers an essential ingredient-direct experience with students and teachers at work in the classroom; and

WHEREAS, the Board has caused its policy to be reviewed by the Superintendent and his designees to obtain a recommendation as to updating such policy with revisions as are necessary and appropriate; and

WHEREAS, the Superintendent has recommended that the Board adopt the revised policy entitled "Selecting Student Teachers/Administrative Interns" at Section 3120.06 of its Policy Manual.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Education of the Youngstown City School District hereby ratifies, approves and adopts the revised policy entitled "Selecting Student Teachers/Administrative Interns," a copy of which is attached hereto and made a part hereof by this reference.

Ms. Mahone moved, seconded by Ms. Hanni that the foregoing resolution be adopted.

Ayes: Kimble, Mahone, Murphy, Atkinson, Beachum, Haire-Ellis, Hanni
Nays: None

Motion carried.

SELECTING STUDENT TEACHERS/ADMINISTRATIVE INTERNS

The Board of Education encourages cooperation with State-approved colleges and universities in the training of student teachers and administrative interns, because the public school offers an essential ingredient – direct experience with students and teachers at work in the classroom. However, certain safeguards have been found to be necessary for the best interests of all concerned.

Colleges and universities should first make contact with the Superintendent or his/her designee regarding placement of a student teacher or administrative intern.

The Superintendent and/or designee shall approve the final placement of student teachers or administrative interns.

The supervising staff member shall have had no less than three (3) years of successful experience in the area of assignment.

The following conditions shall also be met:

A. The institution making the assignment shall provide on-going supervision in a manner suitable to the Superintendent.

B. The supervising teacher or administrator must agree to work effectively with both the student teacher or administrative intern and the institutional supervisor.

C. If at any time the quality of teaching or administrative internship is judged to be inferior or s/he is disruptive to the on-going program, the Superintendent or his/her designee may request withdrawal of that person from the program.

The Board also authorizes the Superintendent to provide, in cooperation with appropriate colleges and universities, a “field experience” program in order for selected interns to gain first-hand knowledge of and experience in a school environment.

The Superintendent may terminate a teaching program if one or more aspects of the program are not of high quality or meeting District needs or expectations.

Student teachers and administrative interns who will receive any financial remuneration from the District must complete a Declaration Regarding Material Assistance/Non-Assistance To A Terrorist Organization (DMA) form with no positive indications that material assistance has been provided to a terrorist organization before working in the District (see Policy 8120).
Student teachers and administrative interns also must pass a background check performed by the Bureau of Criminal Identification and Investigation and the Federal Bureau of Investigation (see Policy 3121).

6/26/12
BULLYING AND OTHER FORMS OF AGGRESSIVE BEHAVIOR

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community.

Harassment, intimidation, or bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes aggressive behavior, physical, verbal, and psychological abuse. The Board of Education will not tolerate any gestures, comments, threats, or actions which cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property, on a school bus, or while enroute to or from school, and those occurring off school property if the student or employee is at any school-sponsored, school approved or school-related activity or function, such as field trips or athletic events where students are under the school’s control, in a school vehicle, or where an employee is engaged in school business.

This policy has been developed in consultation with parents, District employees, volunteers, students, and community members as prescribed in R.C. 3313.666 and the state Board of Education’s Model Policy.

Harassment, intimidation, or bullying means:

A. any intentional written, verbal, electronic, or physical act that a student or group of students exhibits toward another particular student(s) more than once and the behavior both causes mental or physical harm to the other student(s) and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s); or

B. violence within a dating relationship.

“Electronic act” means an act committed through the use of a cellular telephone, computer, pager, personal communication device, or other electronic communication device.

Aggressive behavior is defined as inappropriate conduct that is repeated enough, or serious enough, to negatively impact a student’s educational, physical, or emotional well being. This type of behavior is a form of intimidation and harassment, although it need not be based on any of the legally protected characteristics, such as sex, race, color, national origin, marital status, or disability. It would include, but not be limited to, such behaviors as stalking, bullying/cyber bullying, intimidating, menacing, coercion, name-calling, taunting, making threats, and hazing.
Harassment, intimidation, or bullying also means **cyber bullying through** electronically transmitted acts (i.e., internet, e-mail, cellular telephone, personal digital assistance (PDA), or wireless hand-held device) that a student(s) or a group of students exhibits toward another particular student(s) more than once and the behavior both causes mental

and physical harm to the other student and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment of the other student(s).

Any student or student’s parent/guardian who believes s/he has been or is the victim of aggressive behavior should immediately report the situation to the building principal or assistant principal, or the Superintendent. The student may also report concerns to teachers and other school staff who will be responsible for notifying the appropriate administrator or Board official. Complaints against the building principal should be filed with the Superintendent. Complaints against the Superintendent should be filed with the Board President.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be aggressive behavior directed toward a student. Reports may be made to those identified above.

All complaints about aggressive behavior that may violate this policy shall be promptly investigated. The building principal or appropriate administrator shall prepare a written report of the investigation upon completion. Such report shall include findings of fact, a determination of whether acts of harassment, intimidation, and/or bullying were verified, and, when prohibited acts are verified, a recommendation for intervention, including disciplinary action shall be included in the report where appropriate, written witness statements shall be attached to the report.

If the investigation finds an instance of harassment, intimidation, and/or bullying **by an electronic act or otherwise**, has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include **suspension or** up to expulsion for students, up to discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

Retaliation against any person, who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of aggressive behavior is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in same manner as aggressive behavior. **Retaliation may result in disciplinary action as indicated above.**
Deliberately making false reports about harassment, intimidation, bullying and/or other aggressive behavior for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Deliberately making false reports may result in disciplinary action as indicated above.

If a student or other individual believes there has been aggressive behavior, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

The District shall implement intervention strategies (AG 5517.01) to protect a victim or other person from new or additional harassment, intimidation, or bullying and from retaliation following such a report.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

The complainant shall be notified of the findings of the investigation, and as appropriate, that remedial action has been taken. If after investigation, acts of bullying against a specific student are verified, the building principal or appropriate administrator shall notify the custodial parent/guardian of the victim of such finding. In providing such notification care shall be taken to respect the statutory privacy rights of the perpetrator of such harassment, intimidation, and/or bullying.

If after investigation, acts of harassment, intimidation, and/or bullying by a specific student are verified, the building principal or appropriate administrator shall notify in writing the parent/guardian of the perpetrator of that finding. If disciplinary consequences are imposed against such student, a description of such discipline shall be included in the notification.

Complaints

Students and/or their parents/guardians may file reports regarding suspected harassment, intimidation, or bullying. Such reports shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. Such reports may be filed with any school staff member or administrator, and they shall be promptly forwarded to the building principal for review, investigation, and action.
Students, parents/guardians, and school personnel may make informal or anonymous complaints of conduct that they consider to be harassment, intimidation, and/or bullying by verbal report to a teacher, school administrator, or other school personnel. Such informal complaints shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. A school staff member or administrator who receives an informal or anonymous complaint shall promptly document the complaint in writing, including the information provided. This written report shall be promptly forwarded by the school staff member and/or administrator to the building principal for review, investigation, and appropriate action.

**Individuals** who make informal complaints as provided above may request that their name be maintained in confidence by the school staff member(s) and administrator(s) who receive the complaint. Anonymous complaints shall be reviewed and reasonable action shall be taken to address the situation, to the extent such action may be taken that (1) does not disclose the source of the complaint, and (2) is consistent with the due process rights of the student(s) alleged to have committed acts of harassment, intimidation, and/or bullying.

When an individual making an informal complaint has requested anonymity, the investigation of such complaint shall be limited as is appropriate in view of the anonymity of the complaint. Such limitation of investigation may include restricting action to a simple review of the complaint subject to receipt of further information and/or the withdrawal by the complaining student of the condition that his/her report be anonymous.

**Privacy/Confidentiality**

The School District will respect the privacy of the complainant, the individual(s) against who the complaint is filed, and the witnesses as much as possible, consistent with the Board’s legal obligations to investigate, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

**Reporting Requirement**

At least semi-annually, the Superintendent shall provide to the President of the Board a written summary of all reported incidents and post the summary on the District web site (if one exists). The list shall be limited to the number on the District web site (if one exists). The list shall be limited to the number of verified acts of harassment, intimidation, and/or bullying, whether in the classroom, on school property, to and from school, or at school-sponsored events.
Allegations of criminal misconduct and suspected child abuse will be reported to the appropriate law enforcement agency and/or to Child Protective Services in accordance with statute. District personnel shall cooperate with investigations by such agencies.

**Immunity**

A School District employee, student, or volunteer shall be individually immune from liability in a civil action for damages arising from reporting an incident in accordance with this policy and R.C. 3313.666 if that person reports an incident of harassment, intimidation, and/or bullying promptly, in good faith, and in compliance with the procedures specified in this policy. Such immunity from liability shall not apply to an employee, student, or volunteer determined to have made an intentionally false report about harassment, intimidation, and/or bullying.

**Notification**

Notice of this policy will be annually circulated to and posted in conspicuous locations in all school buildings and departments within the District and discussed with students, as well as incorporated into the teacher, student, and parent/guardian handbooks. At least once each school year a written statement describing the policy and consequences for violations of the policy shall be sent to each student’s custodial parent or guardian. The statement may be sent with regular student report cards or may be delivered electronically.

The policy and an explanation of the seriousness of bullying by electronic means shall be made available to students in the District and to their custodial parents or guardians.

State and Federal rights posters on discrimination and harassment shall also be posted at each building. All new hires will be required to review and sign off on this policy and the related complaint procedures.

**Education and Training**

In support of this policy, the Board promotes preventative educational measures to create greater awareness of aggressive behavior, including bullying. The Superintendent or designee shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board’s policy and administrative guidelines and aggressive behavior and bullying in general will be age and content appropriate.
Annually, the District shall provide all students enrolled in the District with age-appropriate instruction regarding the Board’s policy, including a written or verbal discussion of the consequences for violations of the policy to the extent that State or Federal funds are appropriated for this purpose.

Students in grades seven (7) through twelve (12) shall receive age-appropriate instruction in dating violence prevention education, including instruction in recognizing dating violence warning signs and characteristics of healthy relationships. Parents, who submit a written request to the building principal to examine the dating violence prevention instruction materials used in the school, will be afforded an opportunity to review the materials within a reasonable period of time.

The District shall provide training, workshops, and/or courses on this policy for school employees and volunteers who have direct contact with students, to the extent that State or Federal funds are appropriated for these purposes. Time spent by school staff in these training programs shall apply toward mandated continuing education requirements.

In accordance with Board Policy 8462, the Superintendent shall include a review of this policy on bullying and other forms of harassment in the required training in the prevention of child abuse, violence, and substance abuse and the promotion of positive youth development.

The Superintendent shall develop administrative guidelines to implement this policy. Guidelines shall include reporting and investigative procedures, as needed. The complaint procedure established by the Superintendent shall be followed.

Advances in telecommunications and other related technologies have fundamentally altered the ways in which information is accessed, communicated, and transferred in society. Such changes are driving the need for educators to adapt their means and methods of instruction, and the way they approach student learning, to harness and utilize the vast, diverse, and unique resources available on the Internet. The Board of Education is pleased to provide Internet services to its students. The District’s Internet system has a limited educational purpose. The District’s Internet system has not been established as a public access service or a public forum. The Board has the right to place restrictions on its use to assure that use of the District’s Internet system is in accord with its limited educational purpose. Student use of the District’s computers, network and Internet services (“Network”) will be governed by this policy and the related administrative guidelines, and the Student Code of Conduct. The due process rights of all users will be respected in the event there is a suspicion of inappropriate use of the Network. Users have no right or expectation to privacy when using the Network (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity while on the Network).

The Board encourages students to utilize the Internet in order to promote educational excellence in our schools by providing them with the opportunity to develop the resource sharing, innovation, and communication skills and tools that are essential to both life and work. The instructional use of the Internet will be guided by the Board's policy on instructional materials.

The Internet is a global information and communication network that provides students and staff with access to up-to-date, highly relevant information that will enhance their learning and the education process. Further, the Internet provides students and staff with the opportunity to communicate with other people from throughout the world. Access to such an incredible quantity of information and resources brings with it, however, certain unique challenges and responsibilities.

First, and foremost, the Board may not be able to technologically limit access, through the Board's Internet connection, to only those services and resources that have been authorized for the purpose of instruction, study and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, will open classrooms and students to electronic information resources that have not been screened by educators for use by students of various ages.
Pursuant to Federal law, the Board has implemented technology protection measures, which protect against (e.g. filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children’s Internet Protection Act. At the discretion of the Board or the Superintendent, the technology protection measures may be configured to protect against access to other material considered inappropriate for students to access. The Board also utilizes software and/or hardware to monitor online activity of students to restrict access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. The technology protection measures may not be disabled at any time that students may be using the Network, if such disabling will cease to protect against access to materials that are prohibited under the Children’s Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Superintendent or his/her designee(s) may temporarily or permanently unblock access to sites containing appropriate material, if access to such sites has been inappropriately blocked by the technology protection measures. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measures.

Parents are advised that a determined user may be able to gain access to services and/or resources on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable or controversial. Parents assume risks by consenting to allow their child to participate in the use of the Internet. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet. The Board supports and respects each family's right to decide whether to apply for independent student access to the Internet.

Pursuant to Federal law, students shall receive education about the following:

- safety and security while using e-mail, chat rooms, social media, and other forms of direct electronic communications
- the dangers inherent with the online disclosure of personally identifiable information
C.  the consequences of unauthorized access (e.g., "hacking") cyber bullying and other unlawful or inappropriate activities by students online, and

D.  unauthorized disclosure, use, and dissemination of personal information regarding minors

Staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above. Furthermore, staff members will monitor the online activities of students while at school. Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

Building principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying guidelines. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of the Internet. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response. All Internet users (and their parents if they are minors) are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying guidelines.

Students and staff members are responsible for good behavior on the Board's computers/network and the Internet just as they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply. The Board does not sanction any use of the Internet that is not authorized by or conducted strictly in compliance with this policy and its accompanying guidelines.

Students shall not access social media for personal use from the District’s network, but may be permitted to access social media for educational use in accordance with their teacher’s approved plan for such use.

Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked, and disciplinary action taken against them. Users granted access to the Internet through the Board's computers assume personal responsibility and liability, both civil and criminal, for uses of the Internet not authorized by this Board policy and its accompanying guidelines.

The Board designates the Superintendent and his/her designee(s) as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to students’ use of the Network.

STAFF ACCEPTABLE USE AND SAFETY FOR TECHNOLOGY

Advances in telecommunications and other related technologies have fundamentally altered the ways in which information is accessed, communicated, and transferred in society. Such changes are driving the need for educators to adapt their means and methods of instruction, and the way they approach student learning, to harness and utilize the vast, diverse, and unique resources available on the Internet. The Board of Education is pleased to provide Internet service to its staff. The District’s Internet system has a limited educational purpose. The District’s Internet system has not been established as a public access service or a public forum. The Board has the right to place restrictions on its use to assure that use of the District’s Internet system is in accord with its limited educational purpose. Staff use of the District’s computers, network and Internet services (“Network”) will be governed by this policy and the related administrative guidelines, and any applicable employment contracts and collective bargaining agreements. The due process rights of all users will be respected in the event there is a suspicion of inappropriate use of the Network. Users have no right or expectation to privacy when using the Network (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity while on the Network).

The Board encourages staff to utilize the Internet in order to promote educational excellence in our schools by providing them with the opportunity to develop the resource sharing, innovation, and communication skills and tools that are essential to both life and work. The Board encourages the faculty to develop the appropriate skills necessary to effectively access, analyze, evaluate, and utilize these resources in enriching educational activities. The instructional use of the Internet will be guided by the Board's policy on Instructional Materials.

The Internet is a global information and communication network that provides an incredible opportunity to bring previously unimaginable education and information resources to our students. The Internet connects computers and users in the District with computers and users worldwide. Through the Internet, students and staff can access up-to-date, highly relevant information that will enhance their learning and the education process. Further, the Internet provides students and staff with the opportunity to communicate with other people from throughout the world. Access to such an incredible quantity of information and resources brings with it, however, certain unique challenges and responsibilities.

First, and foremost, the Board may not be able to technologically limit access, through the Board's Internet connection, to only those services and resources that have been authorized for the purpose of instruction, study and research related to the curriculum. The technology protection measures may not be disabled at any time that students may be using the Network, if such disabling will cease to protect against access to materials that are prohibited under the Children’s Internet Protection Act. Any staff member who attempts to disable the technology protection measures without express written consent of an appropriate administrator will be subject to disciplinary action, up to and including termination.

The Superintendent or his/her designee(s) may temporarily or permanently unblock access to sites containing appropriate material, if access to such sites has been inappropriately blocked by the technology protection measures. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measures. The Superintendent or his/her designee(s) may also disable the technology protection measures to enable access for bona fide research or other lawful purposes.

Staff members will participate in professional development programs in accordance with the provisions of law and this policy. Training shall include:

A. the safety and security of students while using e-mail, chat rooms, social media and other forms of direct electronic communications;

B. the inherent danger of students disclosing personally identifiable information online; and,

C. the consequences of unauthorized access (e.g., "hacking"), cyber bullying and other unlawful or inappropriate activities by students or staff online; and,

D. unauthorized disclosure, use, and dissemination of personal information regarding minors.

Furthermore, staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above, and staff members will
monitor students’ online activities while at school. Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

The disclosure of personally identifiable information about students online is prohibited.

Building principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying guidelines. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of the Internet. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response. All Internet users are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying guidelines.

Staff members are responsible for good behavior on Board’s computers/network and the Internet just as they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. Staff members shall not access social media for personal use on the District’s network, and shall access social media for educational use only after submitting a plan for that educational use and securing the principal’s approval of that plan in advance.

General school rules for behavior and communication apply. The Board does not sanction any use of the Internet that is not authorized by or conducted strictly in compliance with this policy and its accompanying guidelines. Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked, and disciplinary action taken against them. Users granted access to the Internet through the Board’s computers assume personal responsibility and liability, both civil and criminal, for uses of the Internet not authorized by this policy and its accompanying guidelines.

The Board designates the Superintendent and his/her designee(s) as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to staff members’ use of the Network.

Social Media Use

An employee’s personal or private use of social media, such as Facebook, Twitter, MySpace, blogs, etc., may have unintended consequences. While the Board respects its employees’ First Amendment rights, those rights do not include permission to post inflammatory comments that could compromise the District’s mission, undermine staff relationships, or cause a substantial disruption to the school environment. This warning includes staff members’ online conduct that occurs off school property including from the
employee’s private computer. Postings to social media should be done in a manner sensitive to the staff member’s professional responsibilities.

In addition, Federal and State confidentiality laws forbid schools and their employees from using or disclosing student education records without parental consent. See Policy 8330. Education records include a wide variety of information; posting personally identifiable information about students is not permitted. Staff members who violate State and Federal confidentiality laws or privacy laws related to the disclosure of confidential student or employee information may be disciplined.

Staff members retain rights of communication for collective bargaining purposes and union organizational activities.

RESOLUTION TO ADOPT REVISED POLICY ON
STUDENT ABUSE AND NEGLECT

WHEREAS, the Board of Education of the Youngstown City School District, pursuant to R.C. 2151.421, 3313.60, and 3319.073, adopted a policy regarding the identification and reporting of cases of child abuse or neglect in accordance with law; and

WHEREAS, the Board has caused its policy to be reviewed by the Superintendent and his designees to obtain a recommendation as to updating such policy with revisions as are necessary and appropriate; and

WHEREAS, the Superintendent has recommended that the Board adopt the revised policy entitled, “Student Abuse and Neglect” at Section 8462 of its Policy Manual.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Education of the Youngstown City School District hereby ratifies, approves and adopts the revised policy entitled, “Student Abuse and Neglect,” a copy of which is attached hereto and made a part hereof by this reference.

Ms. Mahone moved, seconded by Ms. Hanni that the foregoing resolution be adopted.

STUDENT ABUSE AND NEGLECT

The Board of Education is concerned with the physical and mental well-being of the students of this District and will cooperate in the identification and reporting of cases of child abuse or neglect in accordance with law.

Every Board official and employee who, in connection with his/her position, knows or suspects child abuse or neglect must immediately report that knowledge or suspicion to a public children's services or local law enforcement agency. Such reporting is required in every case that reasonably indicates that a child under the age of eighteen (18) or a physically or mentally disabled child under the age of twenty-one (21) has been abused (physically or mentally) or neglected or faces the threat of being abused or neglected.

The Board official and employee making the report shall also notify the appropriate administrator according to the District's Reporting Procedure for Student Abuse or Neglect and shall secure prompt medical attention to any such injuries reported.

Each principal should be mindful of the possibility of physical or mental abuse being inflicted on a student by an employee. Any such instances, whether real or alleged, should be dealt with in accordance with the administrative guidelines established by the Superintendent. Board officials and employees must report suspected abuse to a public children's services or local law enforcement agency even when the suspected abuser is another official or employee.

The identity of the reporting person shall be confidential, subject only to disclosure by consent or court order. Information concerning alleged child abuse of a student is confidential information and is not to be shared with any unauthorized person. A staff member who violates this policy may be subject to disciplinary action and/or civil and/or criminal penalties.

In accordance with law, the Board will provide appropriate instruction on personal safety and assault prevention to all students in grades K-6. In order to develop programs that are appropriate and effective, the Superintendent is authorized to consult with public and/or private agencies or individuals involved in child abuse prevention and intervention. In addition, the Superintendent shall provide a program of in-service education on school safety, prevention of child abuse, violence and substance abuse and promotion of positive youth development, including a review of Policy 5517.01 - Bullying and Other Forms of Aggressive Behavior, for all nurses, teachers, counselors, school psychologists and administrators who work in the District's elementary, middle and high schools.

The in-service education provided to middle and high school employees shall include training in the prevention of dating violence.
All newly-employed nurses, teachers, counselors, school psychologists and administrators who work in the District's elementary, middle and high schools shall complete at least four (4) hours of in-service training within two (2) years of the date of employment. Further, all middle and high school nurses, teachers, counselors, school psychologists and administrators employed by the District as of October 16, 2009, must complete the initial four (4) hours of in-service training no later than October 16, 2011. Additional training must occur every five (5) years thereafter.

A law enforcement officer or children's services agency investigating child abuse or neglect may interview a student on school grounds only in accordance with Board Policy 5540.
