It is the legal responsibility of the Board of Education to approve all textbooks used as part of the educational program of this District. No such textbook will be approved which is not on a list duly filed in the Office of the Superintendent of Public Instruction.

The Board shall, at a regular meeting, select the textbooks to be used in the schools of this District.

Furthermore, it is the legal responsibility of the Board to provide the duly adopted, required textbooks to students who are enrolled in the District free of charge. Textbooks may be in a printed and bound or electronic format. An “electronic textbook” is defined as computer software, interactive videodisc, magnetic media, CD-ROM, computer courseware, on-line service, electronic medium, or other means of conveying information to the student or otherwise contributing to the learning process through electronic means.

The staff should continually research new sources and types of supplementary text materials and explore their innovative use.

The Superintendent shall develop a plan for the review and recommendation of textbooks to ensure staff participation and that parents and members of the community are consulted, where appropriate, in the selection process.

In considering the approval of any proposed textbook, the Board recommends that the following factors be considered as part of any review process:

The Superintendent shall develop administrative guidelines for the selection and maintenance of all educational and instructional materials and equipment. The guidelines shall include a plan for the review of instructional materials by staff and parents. In addition s/he shall periodically, provide for a systematic review, by the Board, of the District's educational resources in order to ensure that they are appropriate for the current educational program. Any revisions that occur should be a result of the school-improvement process.

Students shall be held responsible for the cost of replacing any materials or property which are lost or damaged through their negligence.

Cost of materials may be charged for materials used in those activities beyond the basic curriculum in which a student elects to participate, particularly in shop activities where the product becomes the property of the student.

This policy does not apply to parents who privately arrange transportation for their own children. No District staff shall organize such arrangements or assist parents in doing so.

Any such incidental transportation must be approved in advance and in writing by the building administrator in accordance with the Superintendent's administrative guidelines.

The parent of the participating student will be given, upon request, the name of the driver, the owner of the vehicle, and the description of the vehicle. The District will maintain on file the amount of liability insurance on the vehicle and the name of the insurance company.

No person shall be approved for the incidental transportation of students in a private vehicle who is not an employee of this Board, an approved volunteer, the parent of a student enrolled in this District, and the holder of a currently-valid license to operate a motor vehicle in the State of Ohio.

No person shall be permitted to transport students if s/he does not possess and maintain automobile liability and personal injury insurance in the amount required by District administrative guidelines. The Superintendent may withdraw the authorization of any private vehicle driver who fails to maintain the required amount of automobile liability insurance.

Any private vehicle used for the incidental transportation of students must be owned by the approved driver or the spouse of the approved driver and must conform to registration requirements of the State.
