**Building Technology Liaison (Sysop) Job Description**

Overall, work with the Information Technology Department, your building staff, and other district personnel to facilitate communications and to keep technology running smoothly in your building.

New Building Technology Liaisons should have experience using and supporting district computers, such as proficiency in the use of computer applications (Microsoft Office, email programs, Internet browsers, educational software, etc.), printing, troubleshooting, routine maintenance, network management, and technology-related inservice. Former Building Technology Liaisons will be considered for an open position first (based upon their technical skills).

**Administrative Duties:**
- Email – check at least once a day, use to communicate with Educational Technology Department, etc.
- Attend meetings
- Attend conferences, if possible
- Be liaison with Educational Technology Department and building staff (communicate from staff and to staff)
- Assist with repair forms – use online forms
- Maintain work order log
- Hardware/software inventory
- Turn in supply forms
Youngstown City School District
Youngstown, Ohio
Human Resources Department

Professional Development Duties:
• Accomplish technology competencies
• Encourage others to participate in technology competencies and inservice opportunities
• Attend inservice opportunities
