FUNDRAISER GUIDELINES

All school district fundraisers should be in compliance with Board Policy 5830. This policy suggests that money raised from students should be limited and that all proceeds from fundraisers should be used for school purposes. The policy also states that school personnel shall not be compensated by a vendor who assists with a fundraising activity.

Before initiating any fundraiser, there must be approval from the building principal and the treasurer’s office. This is done by completing the “Student Activity Sales Project Report”. Click here for the form.

Steps for Completing Sales Project Report

1. Estimate potential sales revenue and cost of the fundraiser. These estimates will lead to an estimated profit. If the expected cost exceeds the expected revenue, go no further, you’re not doing this to lose money. Also compare the amount of time and trouble with the expected profit to make sure this is a good use of your time.

2. Complete the top half of the form by giving the fundraising details

3. Obtain the signatures of the building principal and the treasurer’s office

4. Have the fundraiser. You may want to refer to receipt procedures and requisition procedures.

5. After the fundraiser, complete the bottom half of the Sales Project Report, have the principal sign it, and turn it in to the treasurer’s office.
RETURNED CHECKS

There are times when checks are returned by the bank. The following steps should be taken when this occurs.

The Treasurer’s Office will email you the information about the returned check.

1. Contact the parent/individual that wrote the check to provide them an opportunity to make proper payment or to arrange for a satisfactory payment schedule.
2. If after 15 days the payment has not been made or the payment schedule has not been adhered to then the amount will be removed from the district’s financial records.
3. When the payment is removed from the records, the treasurer’s office will inform the building/department involved to remove the payment from the student’s account.
4. The Treasurer’s Office will post a negative receipt to adjust the deposit entry from the books.
5. If at any time the funds have been received for the returned check, the Treasurer’s Office will notify building/department to re-post it the student’s account.
6. Upon receipt of the returned funds the Treasurer’s Office will receipt the funds into the appropriate account.
REFUNDS

When money has been received and deposited by the school district, it can only be returned through the refund process. Examples of reasons for refunds are: return of school pictures, return of lost books, return of summer school fees, and reduction of fees due to moving out of the district or dropping a course.

Procedures to refund money:

1. Complete Refund Form
   a. Include name, address and full receipt account used on original deposit.
   b. Forward original copy (white) to Treasurer's Office. Also forward a copy of the check or receipt.
   c. A Board of Education check will be issued.
   d. Contact the Treasurer’s Office if you have a refund of a prior year expenditure.

Note!!! Do not issue a requisition for any refunds.
