Dr. Azar Expresses his Appreciation in Trying Times

Dighton-Rehoboth (D-R)- Superintendent Dr. Anthony Azar announced today that in the Dighton-Rehoboth Regional School District the mantra **Together Everyone Achieves More (T.E.A.M)** continues to help us get through many unprecedented times. Dr. Azar said, “As we know, the social emotional well-being of both staff and students is paramount to an environment that is conducive to the learning process.” During such unprecedented times, as a global pandemic has impacted our students and staff we are sending a resounding message to both students and staff from Superintendent Dr. Azar how awesome they truly are. Dr. Azar said further, “Students and staff need to know how much they are appreciated and how thankful we are that together as a team we have continued to weathered this incredible pandemic storm.”

“Through the resiliency of our students and hard work of our staff we have been able to accomplish much and create an environment that's conducive to learning. We felt compelled to find a way to get that message to everyone and decided to go to each school with that message of thankfulness to share with the students and staff”, Dr. Azar said. Therefore, as the educational leader, Dr. Azar indicated that he will continue to visit each school over the next several weeks during morning announcements while utilizing the intercom system so that everyone hears the same message. Dr. Azar concluded, “Throughout our school district our administrative team's goal in this endeavor is to lift the spirits of students and staff for all the efforts they have put forth through a historical pandemic.”
