The Chair reported that starting next month the BOE regular meetings are going to be recorded.

H. Superintendent’s Report
Ms. Clemons has been meeting with the leadership from Torrington Public Schools. Her vision is to achieve educational excellence and a respectful learning environment. She strives to provide diverse opportunities which will give students college opportunities. She is pleased to be involved in a city that is passionate in improving education skills in the community. She proposed 3 ideas that would lead the central office to become more fiscally responsible: closing Migeon Avenue. Possible closure of East Elementary School or, remodeling East Elementary School, and moving students in grade 5 to TMS and students from grade 8 to THS. There is a parent survey provided and there will be a survey for the staff as well. She stated that this is all just phase one and her initial thoughts on the process. The surveys will help her gain more insight. Her goal is to get the results of the survey, have a public forum, and then have further discussion with the BOE. The board will get to review the final survey before it is released into the community. Next month the surveys will be looked at and there will be a more formal proposal.

I. Budget Update
Ms. Clemons reported that the budget is still being worked on. She intends to present the budget on March 8, 2017.

J. Health Insurance Update
The Chair stated that they are not in a good position to put out the bid. The claims were high for the last year. The plan is to start to put out the bid in November in hopes that the claims will be down and there will be adequate time to do the bid process. Every option is being looked at currently. She is looking for a way into increasing the stop loss for the future. She stated that the cost projection for insurance next year will not be favorable.

K. Board of Education Sub Committees Roles, Structure and Bylaws
The Chair reported that some members of the BOE are concerned that subcommittees are making decisions when the decisions should be made by the full board. The bylaws are not clear whether subcommittees should be voting or not voting. It is up to the board to decide. She also stated that once the Comments for the Good of the Order have been made, there cannot be discussion. Once everyone has a turn to make their comment, then those who would like to make another comment are allowed to but they have to refrain from engaging into discussion with another person.

Ms. Richardson agreed that subcommittees voting should be clarified. She believes that nothing should be rejected during the subcommittee meetings that has not be reviewed by the full board.
Ms. Hoehne stated that the subcommittees are not run like a full board as they are not as formal. There is a chance for anyone to make a comment and propose suggestions.

Mr. Traub stated that before subcommittees existed, there were 2 full board meetings a month and nothing was accomplished. The purpose of the subcommittees is to vet topics before they are brought to the full board. They are created to do the lower leg work and be an aid to the board. He also stated that the only authority that subcommittees have is to move an item to the full board or decide that the item is not ready to be moved to the full board.

It was decided that all the subcommittee agendas will be emailed to every board member so if there is a topic that interests other board members they can attend.

L. Curriculum Committee Proposal
Ms. Lubomski is working on developing a Curriculum Committee. Some of the topics that should be discussed in this committee will be district wide articulation K-12, report cards, graduation requirements, as well as other subjects that will impact the entire district. She proposes that the Curriculum Committee should be made up of Administrators, teachers, special education teachers, BOE liaison. Meetings would be held every other month. Mr. Maniccia indicated that he is interested in helping with the Curriculum Committee.
