   The monthly financial report was reviewed by Ms. Reitman and Mr. Domanico and there was a brief discussion of account balances and of several accounts which were currently running over-budget.

   Mr. Traub asked the district to provide the committee next month with a plan for mitigating all overages in the budget. It was commented that the Board is likely to seek assistance from the Board of Finance but the district will have to look long and hard at resolving the issues on its own. The district will also need to research how it plans to fund speculated increases going forward.

   The question was asked if we have reviewed all expenditures such as Trash removal. Are we looking at all ways to reduce costs?
A brief discussion regarding athletics and the potential for granting “naming rights” at new stadium. Can the district benefit from advertising dollars? The committee asked Ms. Reitman to investigate what needs to be done at this point and whether the school governance committee can look into this.

It was requested for a future meeting that the district project to the end of the year all overages on accounts.

5. **Special Education Update**

Ms. LaChance reviewed Special Education expenditures as of January 2016. Not much change has occurred since last time. The department continues to look for ways to save money and Ms. LaChance is reviewing IEP’s school by school.

She is also working to keep students in district which requires putting in place programs that students are currently outplaced for. It will require spending some money in order to save money. Ms. LaChance is also looking at condensing programs to create efficiencies which will help to save money too. Summer services also needs to be reviewed and/or re-evaluated for next year.

Committee asked for a 5 year historical record of special education cost overruns.

A question was asked regarding Vo-Ag students and whether or not they need to take Vo-Ag to stay at school. Asked what happens when a student drops Vo-Ag. Would like to get assurance from Vo-Ag schools that students who drop Vo-Ag are returned to Torrington.

Brief discussion of homeless students and the increase in numbers.

Committee would like to see the district eventually develop a 3 year budget projection. While it is not feasible to do for this year (due to timing), would like to see this put into place for next year.
